Projects

Limit

WHACK (Wellesley College Hackathon), Fall 2017

- Android application that helps the user monitor their alcoholic intake. It predicts the user's drinking limit/alcoholic tolerance, and can send a text message to an emergency contact if the user's blood alcohol content is calculated to be harmfully high.

Schnapz

Web Programming Semester Group Project, Fall 2017

- Web application that identifies an uploaded image of food and lists related recipes. It allows the user to email themselves links to recipes, and can display all previous recipes that users have emailed to themselves.

Skills

- C++
- C
- HTML / CSS
- Javascript

Activities

- Tufts Women in Computer Science, Sept 2017 – Current
